**NOTIFICATION OF NON-COMPLIANCE WITH THE  
REQUIREMENTS OF 37 C.F.R. § 1.192(c)**

The Appeal Brief filed 5-19-99 is defective for failure to comply with one or more provisions of 37 CFR § 1.192(c). See 1173 O.G. 62, April 11, 1995.

37 CFR § 1.192(c) requires the following items to be included in the appellant's brief:

- (1) *Real party in interest.* A statement identifying the real party in interest, if the party named in the caption of the brief is not the real party in interest.
- (2) *Related appeals and interferences.* A statement identifying by number and filing date all other appeals or interferences known to appellant, the appellant's legal representative, or assignee which will directly affect or be directly affected by or have a bearing on the Board's decision in the pending appeal.
- (3) *Status of claims.* A statement of the status of all the claims, pending or canceled, and identifying the claims appealed.

Art Unit: 1731

(4) *Status of amendments.* A statement of the status of any amendment filed subsequent to final rejection.

(5) *Summary of invention.* A concise explanation of the invention defined in the claims involved in the appeal, which shall refer to the specification by page and line number, and to the drawing, if any, by reference characters.

(6) *Issues.* A concise statement of the issues presented for review.

(7) *Grouping of claims.* For each ground of rejection which appellant contests and which applies to a group of two or more claims, the Board shall select a single claim from the group and shall decide the appeal as to the ground of rejection on the basis of that claim alone unless a statement is included that the claims of the group do not stand or fall together and, in the argument under paragraph (c)(8) of this section, appellant explains why the claims of the group are believed to be separately patentable. Merely pointing out differences in what the claims cover is not an argument as to why the claims are separately patentable.

(8) *Argument.* The contentions of appellant with respect to each of the issues presented for review in paragraph (c)(6) of this section, and the basis therefor, with citations of the authorities, statutes, and parts of the record relied on. Each issue should be treated under a separate heading.

(I) For each rejection under 35 U.S.C. 112, first paragraph, the argument shall specify the errors in the rejection and how the first paragraph of 35 U.S.C. 112 is complied with, including, as appropriate, how the specification and drawings, if any,

(A) describe the subject matter defined by each of the rejected claims,

(B) enable any person skilled in the art to make and use the subject matter defined by each of the rejected claims, and

(C) set forth the best mode contemplated by the inventor of carrying out his or her invention.

(ii) For each rejection under 35 U.S.C. 112, second paragraph, the argument shall specify the errors in the rejection and how the claims particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(iii) For each rejection under 35 U.S.C. 102, the argument shall specify the errors in the rejection and why the rejected claims are patentable under 35 U.S.C. 102, including any specific limitations in the rejected claims which are not described in the prior art relied upon in the rejection.

Art Unit: 1731

(iv) For each rejection under 35 U.S.C. 103, the argument shall specify the errors in the rejection and, if appropriate, the specific limitations in the rejected claims which are not described in the prior art relied on in the rejection, and shall explain how such limitations render the claimed subject matter unobvious over the prior art. If the rejection is based upon a combination of references, the argument shall explain why the references, taken as a whole, do not suggest the claimed subject matter, and shall include, as may be appropriate, an explanation of why features disclosed in one reference may not properly be combined with features disclosed in another reference. A general argument that all the limitations are not described in a single reference does not satisfy the requirements of this paragraph.

(v) For any rejection other than those referred to in paragraphs (c)(8)(I) to (iv) of this section, the argument shall specify the errors in the rejection and the specific limitations in the rejected claims, if appropriate, or other reasons, which cause the rejection to be in error.

(9) *Appendix.* An appendix containing a copy of the claims involved in the appeal.

Applicant does not include claims 36-46 under "ISSUES" and thus does not comply with paragraph 6 above.

The Brief on Appeal filed 5-19-99 does not comply with the provisions of 37 C.F.R. § 1.192(c)(7) because the brief contains the statement that all of the claims are independently distinct from each other but, in the arguments appellant does not explain why all the claim are believed to be separately patentable. Merely pointing out differences in what the claims cover is not an argument as to why the claims are separately patentable. Claims 27-30 and 32 have not been argued at all. Claims 37-46 only state that the limitations are incorporated by reference (page 13 brief), such is improper as "Merely pointing out differences in what the claims cover is not an argument as to why the claims are separately patentable.", see last paragraph under "(7) Grouping of claims" above. Applicant also does not separately argue claims 17, 19, 21, 22 and

Art Unit: 1731

24-34, but merely points out differences in what the claims cover. The proper Grouping appears to be Group I, claims 16-19,21-22, 24-30 and 34; and Group II, claim 35.

Appellant is required to comply with provisions of 37 C.F.R. § 1.192(c). APPLICANT IS GIVEN A TIME LIMIT OF ONE MONTH FROM THE DATE OF THIS LETTER OR ANY TIME REMAINING IN THE PERIOD UNDER 37 CFR 1.192(a) FOR FILING A NEW COMPLETE BRIEF. If a new brief that fully complies with 37 CFR 1.192(c) is not timely submitted, the appeal will be dismissed as of the date of expiration of the period provided by 37 CFR 1.192(a). No extension of this one month time limit may be obtained under either 37 CFR 1.136(a) or (b) but the original two-month period under 37 CFR 1.192(a) for filing the brief may be extended under 37 CFR 1.136(a) up to six months from the date of the Notice of Appeal.
